Dr Wei SHU
Director General
China Science & Technology Museum
No. 5 Beichen East Road
Beijing, 100012, China

Dear Dr Shu,

Bidding Proposal of China Science and Technology Museum for the ASPAC 2016 Annual Conference

Thanks very much for your Museum in making the bidding proposal for the ASPAC 2016 Annual Conference. It is our pleasure to inform you that after discussing within the Executive Council of ASPAC, we unanimously agreed to accept the bidding from China Science and Technology Museum. Our only concern is that in order to encourage more participations, the registration fee should be pitching at a lower level similar to the recent conferences. Additional accommodation recommendation at a lower level is also expected to provide further choices to the attending delegates.

Following the practice of the recent years, we will like to co-opt a representative from your Museum as the ASPAC 2016 host into the Executive Council. I should be grateful if your Museum can nominate a senior member that preferably can communicate directly in English, can attend the next ASPAC 2015 conference in the Mind Museum of Philippines and a number of teleconferencing for the next two years.

Our new Executive Director Mr YIP Chee-kuen will be in Beijing later this month. I hope that he will be able to discuss with you further on the ASPAC 2016 Conference, the representative in participation of ASPAC Executive Council, and also the further participation of the China Science and Technology Museum in the International Program Committee of the Science Centre World Summit.

Looking forward to coming back to Beijing again for the 2016 ASPAC Conference.

All best wishes,

Alan Brien
President, ASPAC
